

The CANCER THERAPEUTICS TRAINING PROGRAM LECTURE SERIES 2010

Tuesdays 12:00 to 1:00 PM

Lunch available at 11:45 AM for those attending the lecture

Date	Speaker	Affiliation	Title	Location
1/5/10	Maurizio Pellecchia	The Burnham Institute	Chemo-sensitizers and Targeted Drug Delivery for Cancer Chemotherapy	Comer Commons
1/12/10	David Cheresh	UCSD	An integrin $\alpha v\beta 3$-c-Src Oncogenic Unit Promotes Anchorage-Independence and Tumor Progression	Comer Commons
1/26/10	Kenna Anderes	Cylene Pharmaceuticals	Discovery and Clinical Development of CX-4945 a Small Molecule Inhibitor of Protein Kinase CK2 for the Treatment of Cancer	Comer Commons
02/9/10	Peter Ulrich	Targegen	Industry - Academia Collaborations, Win - Win If Done Right	Comer Commons
03/2/10	Eduard A. Sergienko	The Burnham Institute	High Throughput Screening Approaches to Lead Identification in Drug Discovery	Comer Commons
03/10/10 Wednesday	Gregory I Frost	Halozyme Therapeutics	The Tumor Stroma: Following an Orthogonal Target from Biology Through IND	Comer Commons
04/13/10	Michael Milburn	Metabolon	The Role of Understanding Cancer Metabolism Using Global Metabolomics	Comer Commons
05/20/10	Larry Sklar	Univ New Mexico	The Emergence of High Throughput Flow Cytometry for Small Molecule Discovery	Comer Commons
06/15/10	Samuel Blackman	Merck &Co, Inc.	Biomarkers and Early Clinical Development in Oncology: A Case Study	Comer Commons

01/29/10 12:00pm
