

The CANCER THERAPEUTICS TRAINING PROGRAM LECTURE SERIES 2013 - 2014

Tuesdays 12:00 to 1:00 PM

Lunch is available at 11:45 AM for those attending the lecture

Date	Speaker	Affiliation	Title	Location
9/24/13	Stephen Howell, MD	UCSD Hem/Onc	Introduction to Cancer Therapeutics Development	Comer Commons
10/1/13	Williams Ettouati, PharmD	Skaggs School of Pharmacy	Pharmaceutical Landscape and Marketing drugs	Comer Commons
10/8/13	Sonia Sharma, PhD	La Jolla Institute for Allergy and Immunology	RNAi-based screening to pinpoint therapeutic targets in cancer	Comer Commons
10/15/13	Maurizio Pellecchia, PhD	Sanford Burnham Medical Research Institute	Design, synthesis and characterization of novel EphA2 agonists for selective targeted delivery of drugs to cancer cells	Comer Commons
10/22/13	Yazdi Pithavala, PhD	Pfizer	Pharmacology and pharmacokinetics	Comer Commons
10/29/13	Erkki Ruoslahti, PhD	Sanford Burnham Medical Research Institute	Homing peptide-guided nanosystems in experimental cancer therapy	Goldberg Auditorium
11/5/13	Greg Daniels, MD	UCSD Hem/Onc	New immunologic approaches to the treatment of melanoma	Comer Commons
11/12/13	Mark Mercola, PhD	Sanford Burnham Medical Research Institute	Chemical and Functional Genomics to Expand Target Space for New Therapeutic	Comer Commons
11/19/13	Anne Wallace, MD	UCSD Surgery	Evolution of the sentinel node technique, where studies have taken us, and the development of Tilmanocept for sentinel node imaging	Comer Commons
11/26/13	David Schlaepfer, PhD	UCSD Repro Medicine	FAKs behind tumor and stromal mechanisms of ovarian cancer progression	Comer Commons
12/3/13	Razelle Kurzrock, MD	UCSD Hem/Onc	Use of genomic information to personalize therapy	Comer Commons
12/10/13	Napoleone Ferrara, PhD	UCSD Pathology	Resistance to Angiogenesis Inhibitors	Comer Commons
12/17/13	Olivier Harismendy, PhD	UCSD Pediatrics	Genomics and Informatics for Cancer Therapy: Strategies for Using Big Data	Comer Commons
12/24/13			No lecture – Christmas Week	Comer Commons
12/31/13			No lecture – New Year’s Eve	Comer Commons
1/7/14	Brendan P. Eckelman PhD	InhibRx Pharmaceuticals	Development of Antibody Therapeutics	Comer Commons
1/14/14	Steven Dowdy	UCSD Cellular and Molecular Medicine	The Road to RNAi Therapeutics: Tackling a Billion Year Old Gorilla with Bioreversible PhosphoTriester RNAi Prodrugs	Comer Commons
1/21/14	Catriona Jamieson, MD	UCSD Hem/Onc	Cancer stem cell targeting in the Genomics Era	Comer Commons
1/28/14	Paul Mischel, MD	Ludwig Institute	Targeting EGFR mutations in glioblastoma	Comer Commons
3/11/14	Magda Marquet, PhD	Althea Technologies	Biotech Processing: Maturation of Process Control through the Clinical Timeline	Comer Commons
4/3/14 THURSDAY	Stuart Martin, PhD	Harvard Medical School	Targeting the cytoskeletal physics of circulating breast tumor cells to reduce metastasis.	Comer Commons
4/4/14 FRIDAY	Vito Palombella, PhD	Infinity Pharmaceuticals	Development of the Potent PI3K-δ,γInhibitor IPI-145	Comer Commons
5/27/14	Catherine Sanders	Adaptive Biotechnologies	High throughput sequence of T cell receptors	Comer Commons
